Informazioni su questo libro

Si tratta della copia digitale di un libro che per generazioni è stato conservata negli scaffali di una biblioteca prima di essere digitalizzato da Google nell'ambito del progetto volto a rendere disponibili online i libri di tutto il mondo.

Ha sopravvissuto abbastanza per non essere più protetto dai diritti di copyright e diventare di pubblico dominio. Un libro di pubblico dominio è un libro che non è mai stato protetto dal copyright o i cui termini legali di copyright sono scaduti. La classificazione di un libro come di pubblico dominio può variare da paese a paese. I libri di pubblico dominio sono l'anello di congiunzione con il passato, rappresentano un patrimonio storico, culturale e di conoscenza spesso difficile da scoprire.

Commenti, note e altre annotazioni a margine presenti nel volume originale compariranno in questo file, come testimonianza del lungo viaggio percorso dal libro, dall'editore originale alla biblioteca, per giungere fino a te.

Linee guide per l'utilizzo

Google è orgoglioso di essere il partner delle biblioteche per digitalizzare i materiali di pubblico dominio e renderli universalmente disponibili. I libri di pubblico dominio appartengono al pubblico e noi ne siamo solamente i custodi. Tuttavia questo lavoro è oneroso, pertanto, per poter continuare ad offrire questo servizio abbiamo preso alcune iniziative per impedire l'utilizzo illecito da parte di soggetti commerciali, compresa l'imposizione di restrizioni sull'invio di query automatizzate.

Inoltre ti chiediamo di:

+ *Non fare un uso commerciale di questi file* Abbiamo concepito Google Ricerca Libri per l'uso da parte dei singoli utenti privati e ti chiediamo di utilizzare questi file per uso personale e non a fini commerciali.
+ *Non inviare query automatizzate* Non inviare a Google query automatizzate di alcun tipo. Se stai effettuando delle ricerche nel campo della traduzione automatica, del riconoscimento ottico dei caratteri (OCR) o in altri campi dove necessiti di utilizzare grandi quantità di testo, ti invitiamo a contattarci. Incoraggiamo l'uso dei materiali di pubblico dominio per questi scopi e potremmo esserti di aiuto.
+ *Conserva la filigrana* La "filigrana" (watermark) di Google che compare in ciascun file è essenziale per informare gli utenti su questo progetto e aiutarli a trovare materiali aggiuntivi tramite Google Ricerca Libri. Non rimuoverla.
+ *Fanne un uso legale* Indipendentemente dall'utilizzo che ne farai, ricordati che è tua responsabilità accertati di farne un uso legale. Non dare per scontato che, poiché un libro è di pubblico dominio per gli utenti degli Stati Uniti, sia di pubblico dominio anche per gli utenti di altri paesi. I criteri che stabiliscono se un libro è protetto da copyright variano da Paese a Paese e non possiamo offrire indicazioni se un determinato uso del libro è consentito. Non dare per scontato che poiché un libro compare in Google Ricerca Libri ciò significhi che può essere utilizzato in qualsiasi modo e in qualsiasi Paese del mondo. Le sanzioni per le violazioni del copyright possono essere molto severe.

Informazioni su Google Ricerca Libri

La missione di Google è organizzare le informazioni a livello mondiale e renderle universalmente accessibili e fruibili. 3. n, before ia, ie, io, may sometimes be represented by ည, as union ယူညၢ်, onion အၢညၢ်.

Final Consonants.

Final Consonants have no proper equivalents in Sgau Karen; the Vowel Inflections, however, perform, to a considerable extent, the office which final consonants perform in most other languages, viz. they modify the sounds of the vowels to which they belong. In transferring Foreign Terms into Karen, certain vowel inflections may be used to *indicate* that certain final consonants follow, as shown in the preceding Tables.

* or sometimes ခ.

Digitized by Google

When the final consonant of one syllable coalesces with the initial consonant of a syllable following in the same word, that final consonant is indicated by the use of the specified vowel inflection; *as*, in Burmah, ဘၢ်မၤ, the r, of the first syllable is sufficiently indicated by ၢ်, and the r is dropped.

In case they do not coalesce, *as* in Biscay, the specified vowel inflection is used to ***modify the vowel sound***, and the consonant follows as an intermediate syllable, to be pronounced with as little stress of voice as possible: *thus* Biscay, ဘံၥ်စကျၤ.

In case the following syllable commences with a ***vowel***, the specified vowel inflection is used for the purpose above noted, and the final consonant made initial to said vowel; ***thus***, Bith'i-a, ဘံၥ်သအၤ; or Car'i ah ကၢ်ရှအၤ.

A syllable ending with r, or re, when pronounced as two syllables, (*as more, pure, poor,*) this pronounciation may be obtained thus, *more* မိအၢ်; *pure*, ပုအၢ်; poor, ပူအၢ်: shire, ၡံအၢ်, &c.

In syllables ending with *rt*, *rd*, *rk*, &c. *as Cork*, *Port*, the two finals may be indicated by ၥ်; *thus*, Cork, ကိၥ်; Port, ပိၥ်; or *thus*, Cork, ကိၢ်အး; Port, ပိၢ်အး. This rule refers to said syllables as ultimates; if otherwise, they are treated according to rules above, *thus* Fort Louis, ဖိၢ်လူအံၥ်.

When a final consonant of a terminative syllable requires to be *expressed* in order to distinguish the name, or term from another similar one, (or for some other purpose,) said final consonant must be made an extra syllable, with some mark to indicate its finality. For this purpose the Pwo inflection ၪ is adopted; it is to be sounded the same as it is in Pwo, that is, the same as း in Sgau, which would itself be used here if it had not already been appropriated to another purpose. To use it for both purposes would cause confusion; for instance, Job, if written ယိဘး would be confounded with Jobab ယိဘး; but, if we write Job, ယိဘၪ, and Jobab ယိဘး, the names become distinct to the *eye*, though the same to the *ear*.

I have also adopted the Pwo inflection ၫ to indicate a finall (as ၣ် indicates a final nasal), the advantage of which will soon be felt by practice in transferring foreign terms into Karen. Its pronunciation in reading is the same as that of ၣ်.

Drop all silent lotters.

Derivative names, indicating race, profession, trade, sect, &c., require only that the root be transferred with ပှၤ prefixed, and ဖိ affixed, *thus* ချ့ၣ် China, ပှၤချ့ၣ်ဖိ, Chinaman; —ခရံၥ် Christ, ပှၤခရံၥ်ဖိ Christian; —ပၤပၤ Pope, ပှၤပၤပၤဖိ Papist; —မဟိၣ်မ့း Mahomet, ပှၤမဟိၣ်မ့းဖိ Mahomedan.

No rules can be given for the orthography of Karenized foreign names and terms with so much definiteness as to secure entire uniformity, in as much as English authorities differ in regard to *acccnt*, *orthography*, and *sound of the vowels* in many of the proper names.

Besides this, many English sounds have no *perfect equivalents* in Karen, and *vice versa*; so that it may sometimes be doubtful which vowel, consonant, or inflection should be chosen as most nearly equivalent to the foreign sound.

It is believed, however, that an observance of the above rules will secure quite as much uniformity in the Orthography of foreign terms in Karen as we find in English, and that the process is simple and easy.
